

INUS Nurse Workshop

Register now for this educational course specially designed for nurses dealing with neuro-urological patients entitled „**Nursing care of neuro-urological patients needs special knowledge**“.

Objectives:

- Identify risk factors for recurrent UTIs using a systematic assessment tool
- Outline methods for performing intermittent catheterization (IC) in children and adults
- Review different types of intermittent catheters for IC
- Train IC with the trainers

Participate for free if you register for the INUS Annual Congress or book the workshop only for € 120. Please be aware that there is a limited number of participants — so book now!

8:00	Welcome	H. Madersbacher (Austria)
------	---------	---------------------------

URINARY TRACT INFECTIONS IN NEUROGENIC LOWER URINARY TRACT DYSFUNCTION

Moderators: H. Madersbacher (Austria), C. Konstantinidis (Greece)

8:10—8:30	Urinary Tract Infections – the number one complication in patients with Neurogenic Lower Urinary Tract Dysfunction – reasons	A. Oeconomou (Greece)
